

Developing Community Communication Strategies

Led by Charite Ricker, MS, CGC and Claudia Campos, MA
Handout by Ally Wheeler and Prado Antolino M.A., CT, CMI

Panel Discussion

Objectives

- To describe what hereditary breast and ovarian cancer is to a member of your community
- To know how to talk about what genetic counseling is with a member of your community and learn how to work with a medical interpreter
- To identify words and phrases that may be helpful when you present information about hereditary breast and ovarian cancer to Latinos
- To identify ways to share information about resources for individuals who are at increased risk for hereditary breast and ovarian cancer
